## Business<br/>PeopleTourismSocietyTradeMobilityCohesionMobilityCohesionBackboneConnectivityJobs

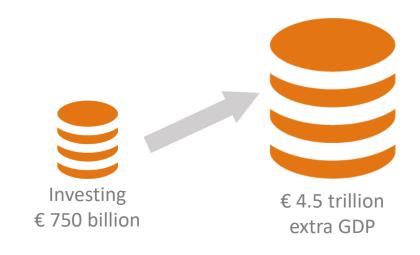

>> If transports stops, the economy stops!

> 1 in 10 Europeans works in the transport sector

» Completing the TEN-T network will create 10 million jobs by 2030 > An investment in long term growth and jobs

Competitive Accessible to all Clean Secure Green Mobile Comfort Integrated Attractive Safe Socially sustainable Automated

> Requires investments and funding now!

## DECARBONISATION OF TRANSPORT IS THE ONLY WAY FORWARD

- » Key goals : reduction of CO2
  - -20% by 2030
  - -60% by 2050

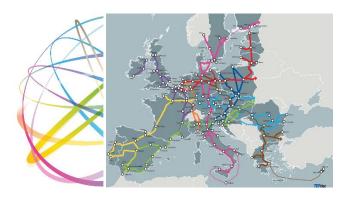

- Targets can only be met if all modes invest in:
  - Greener technology

 Smart & efficient mobility and logistics chain

>TEN-T sets the right priorities for sustainability and cohesion

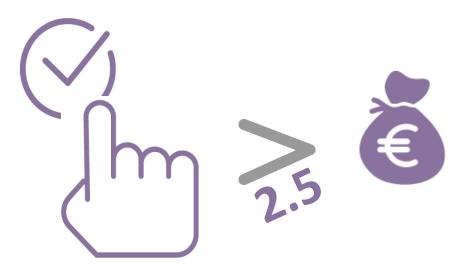

The completion of the core network by 2030 requires

- Transport projects provide low and slow but high societal ROI
- » Responsible grant management

» CEF demand exceeds available resources

- > TEN-T completion at risk due to insufficient budget
  > CEF support best guarantee for EU high added value
- Strong CEF essential to complete TEN-T
